Building Thriving Communities Together

Alphonso Rafi Greene, Jr. Masten Resource Center

Services run out of the MRC:

The Better Schools Better Neighborhoods (BSBN) Collaborative is a consortium of businesses, institutions, faith-based organizations, block clubs, schools, property owners, and residents that live or work in the Martin Luther King, Jr. Park neighborhood, or stakeholders outside the community that are concerned about its growth and development. BSBN is dedicated to re-creating and transforming the Martin Luther King, Jr. Park neighborhood into a great place to visit, live, work, play and raise a family.

The Better Buffalo Fund and Streetscape Project is aimed at dramatically improving the quality of businesses, housing, and the living environment of the Fillmore Avenue Corridor by helping business owners get financed to make necessary facade improvements and renovations to their businesses, increasing the value and quality of the neighborhood.

Pathstone Enterprise Center, Inc. is a Business Development Series held every Monday.

The Block Club Development program offers the community training sessions on how to organize a block club, and develop a neighborhood watch program. Computer literacy training is also available.

Recreational and social actives involving the school-aged youth in the Greater Martin Luther King Park Community are also provided.

Other Services Provided:
